-  **Sandy Sorlien**  
Marbelle, 2020, glass marbles,  
silicone caulk, fiberglass, wood,  
approx. 7' h x 5' w x 4' d

## About the OAE

Originally conceived as a celebration of the JAC's 10th anniversary, the **Outdoor Arts Experience** (OAE) is now timely and of the moment, offering positive works of art, outdoors, for our community's enjoyment and sustenance in a season where gathering together to enjoy art or events might otherwise be impossible.

Location partnerships for the 2020 **Outdoor Arts Experience** include various town properties, historical sites, a state park, and community and business properties located in Jamestown. In partnering with these organizations, the OAE celebrates our incredible natural resources and environment, to promote civic engagement, and create awareness of properties of historical significance.

This exhibition was juried by a selection panel comprised of 12 individuals representing the JAC, partner organizations, the arts community and the community at large. A national Request for Proposals garnered 109 artwork submissions. All submissions were viewed with identifying information removed, allowing the merits of the artwork to be considered without encumbrance. One installation was reserved as the JAC Staff Pick. You're invited to vote for your favorites through a People's Choice ballot!

*The Jamestown Arts Center is a non-profit, multi-disciplinary facility created to benefit the community of Jamestown, Rhode Island, and beyond. Our mission is to **engage, enrich and inspire** our community through extraordinary arts and educational experiences.*
